Thesis statement

Classify

Purpose

Description

Thesis

### **Questions**

1. How is classification different than analysis?
2. How are they related?
3. How may one choose to classify a subject? What may be some criteria?
4. Why is classifying reality tricky or difficult?
5. What should we keep in mind as we determine our classification criteria?
6. How & why might we need to re-evaluate our choice of categories?
7. How do concrete details aid in paragraph development?
8. Where might you apply classification effectively in a “real world” setting?

### **Vocabulary**

binary
